

Jointed Belt
RPF J Belt

RPF J Belt

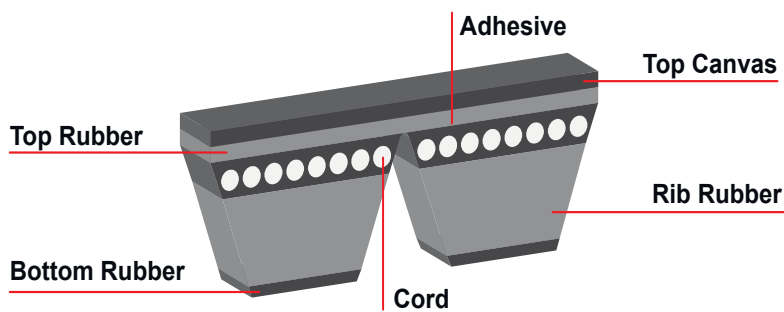

jointed power transmission belt

DURABLE and EFFICIENT

RPF J BELT

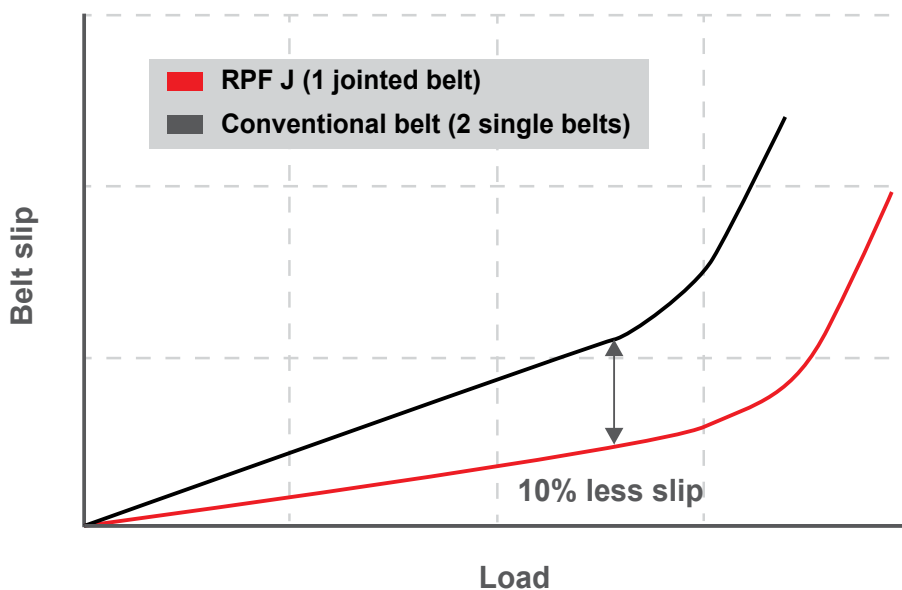

BANDO RPF J belts offer high heat and high side pressure resistance, combined with a high bending flexibility. BANDO RPF J belts are suitable for accessory drives of buses and trucks. RPF J belts increase the operation efficiency, reduce maintenance cycles and total life cycle cost.

ADVANTAGES

- Low vibration, which prevents belt turn over and belt jump off
- Equal load distribution on pulley
- Low slip and long lifetime

Belt slip comparison: RPF J vs. Conventional belt
